

Digital Badge Guide

We're committed to providing you with the tools you need to advance your career. We know that being able to communicate your professional credentials is a necessary step for you. That's why we are excited to partner with [Accredible](#) to provide you with digital versions of the certifications you earn with us. You can add digital badges to your email signature to convey your professional designation or added to your LinkedIn certifications in one one 1-click. We believe these credentials enhance the value of your membership and your certifications with a convenient and professional representation.

Accredible is a platform for creating digital badges. It has issued millions of digital badges for professional associations worldwide for recognizing career certifications and achievements.

What are digital badges?

The digital badge you will receive from Accredible is a way for you to share and validate your achievement. Viewers can easily verify the certification it represents at any time. The online view of the badge will communicate its up-to-date status to anyone attempting to verify it. When you share your badge, viewers can immediately see information about your knowledge and skills, verified by us. Digital badges allow you to stand out as a certified expert in our industry and give you verified credibility.

Benefits of digital badges

Always Accessible - Never worry about losing your certificate - ever. Your credential will always be present at its web address.

Easily Shareable - You want to share your achievement. Digital credentials let you showcase your achievement on Facebook, Twitter, and LinkedIn with one click.

Control Your Privacy: Take advantage of searchability and have your achievement be discoverable on search engines or set it to private and share with only selected people. How and when you share your credential is up to you.

Print at Any Time: Easily print a high-quality PDF of your certificate whenever you'd like.

Learning, Verified - You can verify your achievements at any time. Your certifications on LinkedIn can be linked to your live credential so anyone anywhere can see what you have achieved.

Portable and Exportable Achievements: Compatibility with Mozilla Open Badges means you can add certificates to different Backpacks. Embed your credential on your website, in your email signature, or save a PDF of your credential.

How to find or retrieve your credentials

Once you have been issued a badge from us, you will receive an email notification (sent through Accredible) from training@bloomreach.com. The notification email will be delivered to the email address you supplied and will give you a link to your badge.

What to do with your digital credential

Your digital badge should give you recognition for your newly-earned professional designation. With our secure digital badges, your new skills and knowledge can be verified and shared with employers, colleagues, or recruiters. To get the most out of your digital badge, you can:

- Add it to your 'Certifications' on LinkedIn (you can do this with one click on the credential) · Share it to your LinkedIn feed to update your network;
- Add your badge and designation to your email signature to communicate your new status with your colleagues.
